MY PROFILE

I am a certified full stack web developer that is well versed in the MERN Stack, with experience in both back and front-end development. I am proficient in multiple current and legacy development technologies. I am experienced communicating with Slack, Google Suite and Stack Overflow, and working with GitHub/GitLab, VSCode, Trello, and Agile . I am a very dedicated, detail, and task-oriented person. Because of my versatile background and vast knowledge, I know that I would be an asset to your team.
